A first comprehensive treatise on the [French forestpedagogics](#) has been published at the end of December 2008.

Service Learning

[Learning by engagement](#) is a concept out of the USA which combines the take-over of social responsibility at a concrete project and the corresponding information to this topic with each other. Examples of it are fosterhoods of a school of a forest, beck, nature trail ... The necessary knowledge for the practical activities is mediated in corresponding teaching units as well as the results reflected. A contribution to the change and opening of schools for everyday topics with social meaning shall be ensured with that.

For forestpedagogics *service Learning* is implemented in many categories, most considerably in school forests or forestally whole-day school care.

SDW forestpedagogics speaker

The [SDW](#) has hired an expert for forestpedagogical projects in Bonn (D).

Forest calendar *spring*

21.03. = day of the Forest

22.03. = day of the water

22.04. = day of the earth

25.04. = day of the tree

- The woods are "upbringing" now. Hands off young animals, be quiet in the woods!
- Attention, risk of forest fires already now!

We would be grateful for the sending of tips, appointments, publication indications ... for the forestpedagogics!
